

NEW SOLUTION!

SNO-FLO™

Snow and Ice Anti-Stick Encapsulant

**NEW SOLUTION HELPS YOU
PLOW BETTER, DUMP FASTER AND THROW SNOW FARTHER!**

NEW!

When plowing or moving **high moisture content snow and ice slush**, it ends up aggressively sticking to your plows, grader blades, underneath wheel-wells, dump beds, loader buckets, blower chutes, and on the back of your spreader. This buildup can create **time consuming delays, dangerous driving conditions, use more fuel, and wreak havoc on equipment.**

This winter, simply apply **SNO-FLO™** to solve the above problems and enjoy the following benefits:

- ✓ **PREVENTS WET SNOW BUILD-UP** - on snow plows, dump beds, blower chutes, grader blades, loader buckets, and underneath vehicle wheel wells!
- ✓ **IMPROVED SAFETY** - keeps wet snow and ice slush off your warning lights so they stay visible!
- ✓ **LESS EQUIPMENT MAINTENANCE** - the weight of wet snow is very damaging to equipment!
- ✓ **FUEL SAVINGS** - less weight means more miles per gallon!
- ✓ **LESS GARAGE SLUSH** - by keeping the snow and ice slush off your equipment, it stays off your garage floor and out of your drains!

From small plowing and spreading fleets to large plowing and spreading fleets, the "product of choice" to plow better, haul faster and throw snow farther, is new **SNO-FLO™!**

Always apply **SNO-FLO™** with RHOMAR's Public works Applicator!

This winter you owe it to yourself to experience the remarkable difference that **SNO-FLO™** will make in your winter operations!

- Snow Plows
- Dump Beds
- Wheel Wells
- Blower Chutes
- Warning Lights
- Loader Buckets

PREVENTS WET SNOW BUILD-UP

IMPROVED SAFETY

FUEL SAVINGS

REDUCES GARAGE SLUSH

Customer comments about **SNO-FLO™**

To be honest I thought we would end up wasting our money, boy was I wrong. SNO-FLO works exactly like you said it would and we are now using it on our running lights and plows.

Daniel Greenwood
Street Superintendent

Our biggest problem was snow sticking to our truck beds since we haul the snow out of the downtown area. SNO-FLO is great stuff and the guys love it! The snow just slides right out...

Terry Fleck
Director of Public Works
