

RHOMAR

STAND-UP™

De-Icing/Anti-Icing Walkway Encapsulant

DESCRIPTION: STAND-UP™ was designed for Facility, Property and Building & Grounds Managers, to mitigate slip and fall liabilities. STAND-UP™ offers a fast, powerful, cost effective and safe solution to combat dangerous snow and ice accumulations.

USES: STAND-UP™ improves pedestrian safety on sidewalks, ramps, paths, entryways and steps that are free of snow & ice. STAND-UP™ is remarkable on decorative pavers, stamped concrete, bricks or any other hard to plow or shovel surface.

APPLICATION OF STAND-UP™: For the best results, apply STAND-UP™ with Rhomar's portable 25-gallon spray system designed with a 25 ft hose, pistol grip handle and option of jet stream or fan spray. For smaller areas utilize Rhomar's 3-gallon Big Mouth Applicator. Rhomar also has a full line of spray systems to fit your needs, just ask a Rhomar Representative.

FOR DE-ICING: Spray STAND-UP™ directly onto the surface in a liquid jet stream about four (4) inches apart. Allow STAND-UP™ to penetrate the icy surface, migrate underneath the ice and snow pack, breaking the bond. Then easily plow or shovel it away.

FOR ANTI-ICING: STAND-UP™ needs to be applied liberally with a fan spray pattern onto the surface. You may apply STAND-UP™ one (1) to twelve (12) hours before the storm starts depositing ice or snow for optimum results. This will prevent bonding to concrete and other surfaces and eliminate hazardous frost and black ice and reduce ice and snow build-up. Then you may simply plow or shovel the snow and ice from the surface.

- **DE-ICING** - Aggressively melts ice and snow sludge!
- **ANTI-ICING** - Prevents bonding of ice or snow!
- **BLACK ICE & FROST** - Simply melts it away!
- **DECORATIVE CONCRETE** - Safely protects & keeps it ice free!
- **TEMPERATURE RANGE** - Aggressively melts ice from 32° down to -65° below zero!
- **ADA COMPLIANT** - Will not impede wheelchair traffic!
- **SIMPLY PUT, STAND-UP WORKS!**
