

RHOMA-SWEET™

Grape Sewer Sweetener

DESCRIPTION: RHOMA-SWEET™ was developed specifically to give Municipal/Industrial sewer and wastewater professionals the ability to safely control obnoxious odors, wherever they are created.

USES: RHOMA-SWEET™ is remarkable when used to reduce odors in Municipal lagoons, sewer mains and laterals, aerators and all areas of wastewater treatment plants.

RHOMA-SWEET™ is also a must have for industrial waste haulers, processing and rendering plants that deal with eradicating tough odors caused by the stench of decomposing and fermenting of any animal or organic waste.

RHOMA-SWEET™ controls odors without using harmful solvents and will not disrupt the natural bacterial action for degrading waste.

APPLICATION: Use RHOMA-SWEET™ full strength by the drip method in wastewater lagoon systems or at the wastewater treatment plant clarifier's, trickling filters or holding tanks that emit odors. Always make sure to cover the affected area by wetting it thoroughly.

May be diluted with water for greater economy if the odors to be covered are not that intense.

- **ELIMINATES** - Lagoon & sewer odors!
- **REFRESHING GRAPE SCENT** - Controls obnoxious odors & reduces PR calls!
- **NO HARMFUL SOLVENTS** - That can damage bacterial action!
- **ENCAPSULATES ODOR** - From honey wagons & waste hauling!
- **SIMPLY PUT, IT WORKS!!**
