

# MET-CON 3000™

Salt Dome and Storage Building Protection

**DESCRIPTION:** MET-CON 3000™ was developed to give highway departments and contractors an effective method of protecting salt storage domes and buildings. These buildings are devastated by water and moisture laden with salts and chlorides used for de-icing roadways. MET-CON 3000™ formulation technology allows the moisture vapor in the concrete to escape while resisting any penetration of water or elements back into the concrete.

**USES:** MET-CON 3000™ is proven to be your first line of defense for protecting your investment in the concrete walls, floors and foundations of salt storage buildings. Also, MET-CON 3000™ resists the migration of salt and chloride residue through the concrete.

**SURFACE PREPARATION:** New concrete should be allowed to cure for 28 days whenever possible and then apply MET-CON 3000™. Existing concrete should be pressure washed to remove dirt and debris, then let dry. Etching is not necessary on rough surfaces but for superior bonding on highly finished concrete, surface may be acid etched with an acid cleaner such as muriatic acid.

**APPLICATION MET-CON 3000™:** Stir thoroughly and apply without thinning. It is recommended that you apply MET-CON 3000™ with Rhomar's Public Works Applicator. However, you may also brush on or roll on MET-CON 3000™, depending on the area needing protection. For best protection, always apply two coats approximately 1 hour apart under good conditions. MET-CON 3000™ tools may be cleaned or product thinned with the use of turpentine.

**COVERAGE:** Approximately 200-250 sq ft per gallon during the initial coat and 300-400 sq ft per gallon for the second coat.

- **PROTECTS INVESTMENT - In salt storage buildings!**
- **INHIBITS PENETRATION - Of salt water to rebars!**
- **REDUCES SPALLING - Of cement walls and pads!**
- **PENETRATES - Open capillaries of concrete!**
- **RESIST MIGRATION - Of salt and chloride to the soil!**
- **CLEAR BARRIER - For protection of wood components!**

Sold Exclusively By:

**RHOMAR Industries Inc**  
2107 E Rockhurst  
Springfield MO 65802

NET CONTENTS 5 Gallons

**DANGER**

**HAZARDS IDENTIFICATION:** Highly flammable liquid and vapor. May be harmful if swallowed, in contact with skin or inhaled. May be fatal if swallowed and enters airways. May cause serious eye irritation. May cause drowsiness or dizziness.

**PRECAUTION:**

Keep away from heat, sparks, open flames, hot surfaces, No Smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical, ventilating, lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing fumes, mist, vapors and sprays. Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/clothing, eye/face protection.

**RESPONSE:**

**EYES:** Rinse cautiously with water for several minutes. Remove contact lenses and continue to rinse. If irritation occurs, get medical advice/attention.

**SKIN:** Remove/take off contaminated clothing. Rinse skin with soap and water. Wash contaminated clothing before reuse.

**INHALATION:** Remove victim to fresh air and keep in a position comfortable for breathing.

**INGESTION:** If you feel unwell, call a Poison Center or Doctor/Physician. Rinse mouth.

**STORAGE:** Store in a well ventilated place. Keep container tightly closed. Keep cool.

**CONTAINS:** Acetone, Methyltrimethoxysilane, Solvent Naptha (petroleum) light aromatic.

**DISPOSAL:** Dispose of contents/container to an approved waste treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.

The recommendations and statements contained herein for use of our products are based on reliable tests, but are not construed as guarantee or warranty either expressed or implied. RHOMAR Industries, Inc. will not be held liable under any circumstances or conditions; either expressed or implied damage in excess of the purchase price of product.
