

RHOMA-SWEET™

Grape Sewer Sweetener

ELIMINATES... the toughest sewer odors leaving behind a fresh grape scent!

PROBLEMS

Odors from sewer mains & sewer overflows.

Odors from lagoons, open digesters & filter beds.

Odors found anywhere at the WWTP.

SOLUTION

BENEFITS

- ✓ **COMPLETELY ELIMINATES ODORS:** Not a masking agent, works by encapsulating then destroying the odor at the molecular level.
- ✓ **NO HARMFUL SOLVENTS:** Will not harm the bacterial process in wastewater treatment.
- ✓ **A LONG LASTING, REFRESHING GRAPE SCENT:** Is left behind after the odor is destroyed.
- ✓ **EXTREMELY ECONOMICAL:** Only a few parts per million needed to correct and control nasty odor problems.
- ✓ **SIMPLY PUT, IT WORKS!**

Honey Wagons/Vac Trucks

FAQ ABOUT RHOMA-SWEET™

1. How often do I need to apply RHOMA-SWEET™?

For sewer overflows and problem areas use as often as needed. In lagoons & wastewater treatment plants apply regularly to prevent problem odors.

2. How do I apply RHOMA-SWEET™?

You can pour, drip or inject RHOMA-SWEET™ directly into the sewer main, lagoon or any problem area at the WWTP. For smaller overflows and problem areas apply RHOMA-SWEET™ directly to the source with a hand-held sprayer.

Additional Sewer Maintenance Products

SNAKE-IT™

The Ultimate Sewer Opener

Powerful granular "Aluminum Needles" cut through the toughest wipes, FOG and tree roots. No need for jetting!

RHOMA-LIFT™

Floating Lift Station Degreaser

Dual-Action RHOMA-LIFT™ keeps your lift stations clean & functioning by eliminating the FOG buildup and it leaves a pleasant grape scent reducing citizen odor complaints.
